

KEY REQUIREMENTS

- Meet regulatory compliance
- Achieve performance comparable to additives with PFAS
- Eliminate melt fracture and reduce die build-up
- Increase productivity and reduce product changeover time

PERFORMANCE + COMPLIANCE

FILM MANUFACTURER BLOWN FILM

AVIENT SOLUTION

Hiformer™ Non-PFAS Process Aid (AO Series)

WHY AVIENT?

- Offered non-PFAS solution to meet regulatory requirements and performance objectives
- Reduced machine downtime for die cleaning and changeovers, increasing overall productivity
- Achieved high throughput with minimal amount of additive and showed no interaction with other additives
- Shared comprehensive studies on various chemistries and offered key technical support
